

Contractors receive accreditation under the ContractorCheck program

RiskCheck would like to congratulate Garage C. Isabelle & Fils Inc. and Davies Lock & Door Services Ltd. for becoming the first contractors in their respective provinces to become accredited under the ContractorCheck certification program operated by RiskCheck. RiskCheck

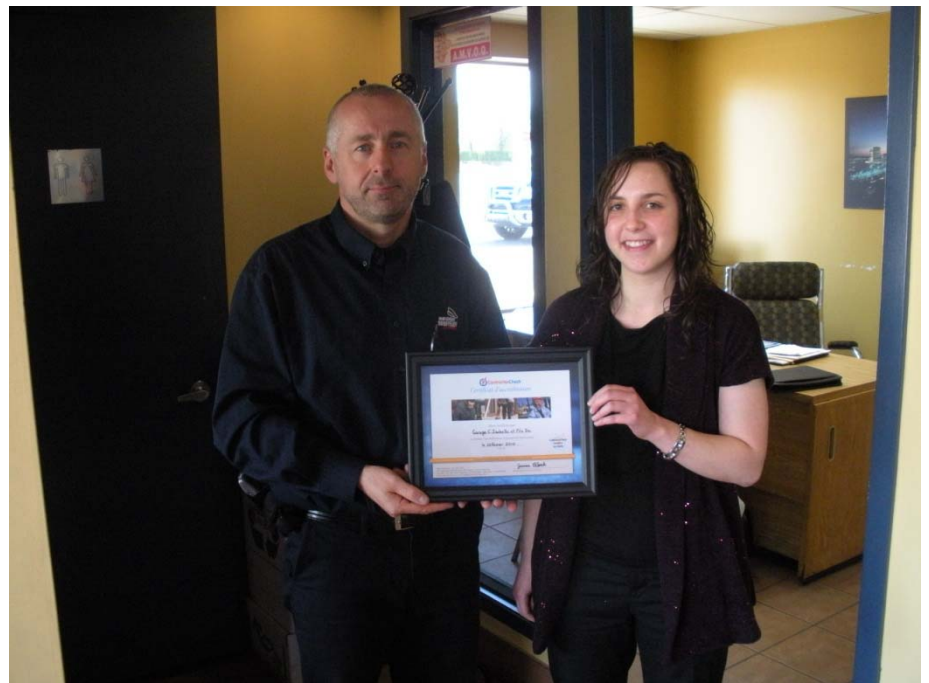

representatives visited their offices in Grand-Mère, Quebec and Toronto, Ontario to award the companies with their certificates which were proudly accepted by their owners.

The contractors should be commended for demonstrating a high health and safety standard and for helping to reduce the overall risk.

ContractorCheck is a third party accreditation program that assesses the health & safety competency of contractors. For more information on the process, visit www.contractorcheck.ca.
