

## **Contractors receive accreditation under the ContractorCheck program**

RiskCheck would like to congratulate Garage C. Isabelle & Fils Inc. and Davies Lock & Door Services Ltd. for becoming the first contractors in their respective provinces to become accredited under the ContractorCheck certification program operated by RiskCheck. RiskCheck

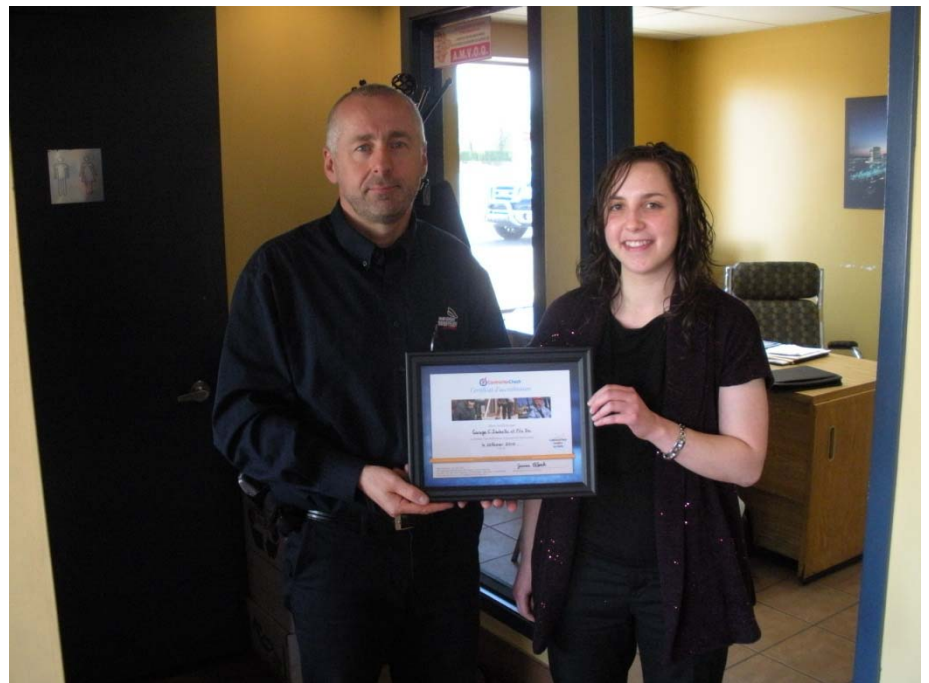

representatives visited their offices in Grand-Mère, Quebec and Toronto, Ontario to award the companies with their certificates which were proudly accepted by their owners.

The contractors should be commended for demonstrating a high health and safety standard and for helping to reduce the overall risk.

*ContractorCheck is a third party accreditation program that assesses the health & safety competency of contractors. For more information on the process, visit [www.contractorcheck.ca](http://www.contractorcheck.ca).*
