

# Environmental & Sustainability Management

“Offering advice and services for landlords eyeing  
another kind of bottom line.”

- Terrence Belford, Globe and Mail

**GreenCheck** is a business solution for **Corporate Environmental Responsibility** and **Sustainable Business Practice**

Build on your firm's environment record and go beyond all expectations to a new level of corporate and social responsibility.

To facilitate this goal, **GreenCheck** has been developed by **RiskCheck Inc.**, one of Canada's leading safety, health and environmental risk management companies, as an easy to use online tool aimed at the building management level.

**GreenCheck** uses **RiskCheck's** online *Interactive System* to provide the tools needed to aid property management toward a more sustainable future. In addition to access to expert staff in environmental and sustainability management, the *Interactive System* will provide automatic reminders for all procedures and checks needed to ensure that properties stay on track.

**GreenCheck** allows you to:

- Promote environmental stewardship
- Establish benchmarks with quantifiable results
- Choose the level of intensity based on goals and ambitions
- Work toward and manage recognized certifications including **BOMA BEST** and **LEED EB:O&M**

**GreenCheck** provides:

- Management Plan templates for easier program set up
- Progress tracking toward sustainability goals
- Contacts and information on green products and services
- Billing Analysis provides a picture of monthly and yearly utility use to set goals, track improvements and identify anomalies.

**GreenCheck** focuses on:

Energy conservation	Social programs
Water conservation	Air quality
Waste management	Transportation
Recycling	Landscape management
Building maintenance	Building retrofits

**GreenCheck** utilizes a multi-stage process to achieve optimal performance in environmental management and certification.
